BLUE HAVEN IS WHERE IT'S AT FOR *Spas*

One of the best backyard ideas you may ever have is to install a Blue Haven Spa. It's a lot easier to own a backyard spa or swim spa than you may think. Installation usually involves making sure you have a good foundation for a water-filled backyard spa, an electrical connection; and a garden hose to fill her up!

Whether your backyard ideas are along the lines of the contemporary, energy-saving tub, or if you simply want to get more from the space around your spa, we can help.

Our friendly team has lots of backyard ideas and spa tips to help you with buying the best Blue Haven Spa to suits your needs. With a wide range of spa sizes and models, there's something for everybody and every home.

Swim spas have become more and more popular especially for sites with limited access, council constraints or even for fun and recreation if you are renting a property.

Experience counts – since 1973 and we're just warming up.

The BENEFITS of a spa

Health AND YOUR SPA

Relaxation

One of the great benefits of owning a Blue Haven spa is the instant access to total relaxation. The combination of hot water with perfectly placed massage jets allows you to sit back and relax while receiving a massage to all points of your body. With each seat designed to deliver a different massage, you can sit back and relax after a tiring day.

Therapy

A Blue Haven spa delivers hydrotherapy whenever you require it. It increases the blood flow for greater circulation, can massage sore or tired muscles and joints, rejuvenates your system and enhances recovery from injury or ailments.

Fun & Family

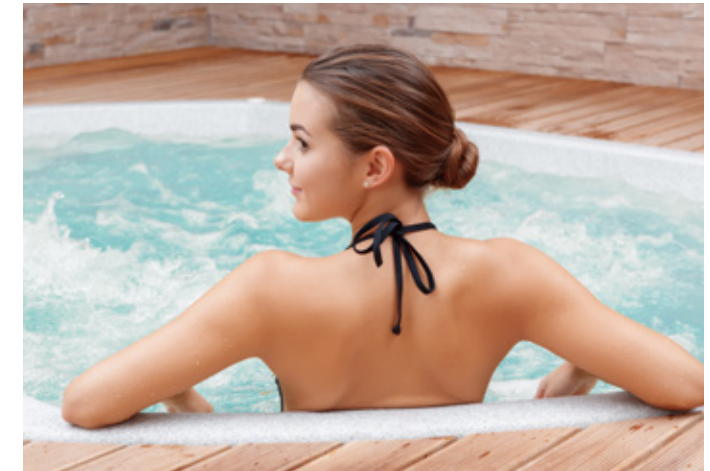

Your Blue Haven spa is the ultimate hub for family and friends. Whether it is a BBQ or birthday party, you can bring any celebration to life with your spa. Turn the heater down and the kids can use it as a small pool in summer to cool down. Teenagers can entertain their friends while you enjoy a cold drink on a summer's day with your friends.

Aesthetics

Light up your backyard with amazing lighting and water falls, turn the iPod dock on and listen to tunes on to the soothing sound of running water. You don't have to be sitting in the spa to get the benefits.

Stress Free

Not only does a spa do wonders for relaxation and stress relief but the actual journey of choosing and installing a spa is totally fuss free. The shopping process is simple with a range of spa models, shapes and sizes to suit your individual space. We can take care of as much or as little as you like as we are licenced and specialized to do slabs, landscaping, carpentry, artificial grass, outdoor kitchens and complete outdoor alfresco solutions.

VERONA *Spa*

Our Verona is family friendly and moulded to support your body in comfort. Effective hydro massage for neck, back, wrists, legs and feet with air control and massage selectors within easy reach. Complete with under water lighting this spa is the right atmosphere for every night session.
